

Wall & Floor Lining

This project required a seamless, wall and floor lining to replace a previously installed flooring system with tiled walls. The original system was prone to leaking and the tiling system had lost its integrity. Strandek replaced the original system with a new [GRP \(fibreglass\) lining](#) designed to create a unified waterproofing barrier on the floors, walls and jointed areas. The benefit of fibreglass in this instance is also the durability: it is abrasion resistant and does not crack unlike tiled surfaces.

Performance

See more at <https://www.strandek.co.uk/services/industrial-lining-coating/walls-floors/>

The robustness of the Strandek® glass fibre system has been proven since 1976 and is an excellent way to waterproof any property.

Steve Bowen®, Managing Director, Strandek GRP Systems

About Strandek

Established in 1976, Strandek specialise in a range of waterproofing solutions. Working with a range of customers, they offer exceptional performance and a high-quality of workmanship.
